

**EUROPEAN
BIOENERGY 14TH
FUTURE NOVEMBER
HANOVER**

hosted by

AGENDA

09:00 09:30

Opening

Welcome by the exhibition organiser

Dr. Reinhard Grandke, DLG *tbc*

Foreword by Bioenergy Europe's president

Didzis Palejs, Bioenergy Europe

Opening statement by the Mayor of Hannover

Stefan Schostok *tbc*

About our sponsors

Nino Aveni, Bioenergy Europe

09:30 10:30

Market trends

Statistics, trends and market data on the development of different bioenergy sectors (heat, electricity and transport) over the last year - with a focus on Germany. The session will present why Europe can rely on bioenergy as a renewable in the years to come.

Updates on EU markets

Cristina Calderon, Bioenergy Europe

Gilles Gauthier, Bioenergy Europe

Updates on the German market

German Bioenergy Association *tbc*

Q&A session with Slido

10:30 11:00

Coffee-break

11:00 12:00

CEO's vision

Bioenergy is a multifaceted industry, representing plenty of technologies and feedstocks. In this session we look at three main applications - heat, power and transport - and ask CEOs of prominent companies to provide us with their innovative vision for the future.

Domestic heating

Stefan Ortner, ÖkoFEN

Shell's Sky Project

Martin Haigh, Shell *tbc*

Heineken's "Drop the C" project *tbc*

Biomass in transport: Aviation biofuels *tbc*

12:00	13:00	Ahead of implementation: EU sustainability criteria	<p>For the first time, the new Renewable Energy Directive (REDII) sets EU-wide sustainability criteria for solid and gaseous biomass. After a presentation of the criteria themselves, this session will discuss how economic operators will show compliance with the sustainability criteria and their impact on future market developments of bioenergy.</p> <p>New sustainability criteria and their implementation Giulio Volpi, European Commission <i>tbc</i></p> <p>Panel debate Thomas Siegmund, German Bioenergy Association Charles Shier, Bord na Mona Susanna Pflüger, European Biogas Association</p> <p>Q&A with Slido</p>
13:00	14:00	<i>Lunch</i>	
14:00	15:00	Domestic and industrial heat	<p>Following the COP 21 agreement, the recently agreed Clean Energy Package for 2030 gives a new impetus to the decarbonisation of heating & cooling sector, opening the way to new opportunities for bioenergy. After a presentation identifying the new opportunities, the panel will share the vision of the industry.</p> <p>What's new in EU policy? Nathalie Hemeleers, Bioenergy Europe</p> <p>Panel debate Christian Rakos, ProPellets Austria Kamila Waciega, Veolia Werner Sitzman, Amandus Kahl <i>tbc</i> Karin Medin, Soderenergi <i>tbc</i> Walter Breda, MCZ <i>tbc</i></p>
15:00	15:30	<i>Coffee-break</i>	
15:30	16:30	Agriculture	<p>The post-2020 Common Agricultural Policy reform proposal was published in June 2018 and is currently under discussion. The panel will explore opportunities for the bioenergy sector and discuss challenges lying ahead.</p> <p>Opportunities within the CAP reform Giulia Cancian, Bioenergy Europe</p> <p>Panel debate Manolis Karampinis, CERTH Emmanuel de Maupeou, NovaBiom <i>tbc</i> Zuzanna Jezak, Enea <i>tbc</i> Mihail Dumitru, DG AGRI, European Commission <i>tbc</i> Lena Asheim, Salix Energy <i>tbc</i></p>
16:30	17:00	Conclusion	<p>Take-home messages Jean-Marc Jossart, Bioenergy Europe</p>
