

09:00	09:30	Opening	<p>Welcome by the exhibition organiser Dr. Reinhard Grandke, DLG</p> <p>Foreword by Bioenergy Europe's president Didzis Palejs, Bioenergy Europe</p> <p>Opening statement by the Mayor of Hannover tbc</p> <p>About our sponsors Nino Aveni, Bioenergy Europe</p>
09:30	10:30	Market trends	<p>Statistics, trends and market data on the development of different bioenergy sectors (heat, electricity and transport) over the last year - with a focus on Germany. The session will present why Europe can rely on bioenergy as a renewable in the years to come.</p> <p>Updates on EU markets Cristina Calderon, Bioenergy Europe Gilles Gauthier, Bioenergy Europe</p> <p>Updates on the German market Matthias Held, German Bioenergy Association John Bingham, Hawkins Wright</p> <p>Q&A session with Slido</p>
10:30	11:00	<i>Coffee-break</i>	
11:00	12:00	Vision for the future	<p>Bioenergy is a multifaceted industry, representing plenty of technologies and feedstocks. In this session we look at three main applications - heat, power and transport - and ask CEOs of prominent companies to provide us with their innovative vision for the future.</p> <p>Domestic heating Stefan Ortner, ÖkoFEN</p>
12:00	13:00	Ahead of implementation: EU sustainability criteria	<p>For the first time, the new Renewable Energy Directive (REDII) sets EU-wide sustainability criteria for solid and gaseous biomass. After a presentation of the criteria themselves, this session will discuss how economic operators will show compliance with the sustainability criteria and their impact on future market developments of bioenergy.</p> <p>New sustainability criteria and their implementation Giulio Volpi, European Commission</p> <p>Panel debate Jean-Marc Jossart (<i>moderation</i>) Giulio Volpi, European Commission</p>

Thomas Siegmund, German Bioenergy Association
Justin Tait, Enviva
Susanna Pflüger, European Biogas Association
Anna Liisa Myllynen, Stora Enso

Q&A with Slido

13:00 14:00

Lunch

14:00 15:00

Domestic and industrial heat

Following the COP 21 agreement, the recently agreed Clean Energy Package for 2030 gives a new impetus to the decarbonisation of heating & cooling sector, opening the way to new opportunities for bioenergy. After a presentation identifying the new opportunities, the panel will share the vision of the industry.

What's new in EU policy?

Nathalie Hemeleers, Bioenergy Europe

Panel debate

Christian Rakos, ProPellets Austria

Kamila Waciega, Veolia

Marco Palazzetti, Palazzetti

Mark Lebus, LC Energy *tbc*

Maarten Visser, CPM *tbc*

15:00 15:30

Coffee-break

15:30 16:30

Agriculture

The post-2020 Common Agricultural Policy reform proposal was published in June 2018 and is currently under discussion. The panel will explore opportunities for the bioenergy sector and discuss challenges lying ahead.

Opportunities within the CAP reform

Giulia Cancian, Bioenergy Europe

Panel debate

Dan Burgar Kuželički, European Commission DG AGRI

Manolis Karampinis, CERTH

Carsten Neumeister, Salixenergi Europa AB

Patryk Dunal, Enea

Emmanuel de Maupéou, NovaBiom *tbc*

Lena Asheim, Salix Energy *tbc*

16:30 17:00

Conclusion

Take-home messages

Jean-Marc Jossart, Bioenergy Europe
